FOR GOVERNOR. MAJ. GEN JOHN W. GEARY, OF CUMBERLAND COUNTY

The New York Penian Demonstration. Wood Inceday in honor of the arrival of James Stephens, C O F B About fifteen thousand persons were present, and Mr. Stephens, in a long speech, gave a detailed account of the oper of the organization from its inception the present time, and at its close stated that the object of his visit to America was for the purpose of restoring harmony and union between the two factions, and promised that active operations would commence in Ireland for its liberation from English rule before the close of the present ver The greatest enthusiasm prevailed, and Mr Stephens received a most cordial welcome from the vast assemblage. Mr Stephens was the only speaker, and on the conclusion of his re

narks the audience dispersed Wise Otherwise.

Henry A Wise made a speech at Richmon rating the numbersary of Stc., Jackson's decease it is in the oldfire eating win end full of the passion and extravegance which characterize 3" his revolutionary harangues He s now seeking martyrdom, but is not likely to get anything more than a contemptible notorie

It don't know that I am a prisoner [Laugh tot] I am bound by no chain. I have a pass to tot | I am bound by no chain. I have a pass to tot | I am bound by no chain. I have a pass to tot | I am bound by no chain. I have a pass to tot | I am bound to the mested, but I wan to mu living to fell me winther I might go [Cheers I have the proud existration of saying that I lought until we had won the practice of each paroled [Ap plause.] I here is no authority here or elsewhere to arrest me or to stop my mouth so long as I obey the conditions of line parole and upon that period I shall stand so long as I have [Ap plause ] hou call no a prisoner of war I am a prisoner of war and I prisoner at all, I am a prisoner of ponce. Among the hast shots here dry liftantly at Appomattox were those freed by the troops that I had the honor and pride to lead and there at Appomattox peace was brought about.

\*\*You call the cause lest it is not lost. If it is

Four call the cause lest it is not lost. If it is ost the cause of civil therry is doomed, for it, oo, is lest. There was a Paradise lost and a radials regained, and there will be a Paradise regained, and there will be a Paradise lost and a radial of this country. The blood that has a spilled is too precious. I should not be leve in a God if I did not believe that a special providence would vet give victory to and al providence would vet give victory to and core the trumph of cull liberty in this

blush to the check of the most vinegar visaged
old maid that ever declaimed at a Woman's
like his Convention

old maid that ever demands a system of Rights Convention. The bert drukers were caught in the tempest on their return to New York, from the drinking resorts of Hoboken, and, to the appearance, they liked it even less than the Excise law. There were probably more Sunday has lost from the North River ferry boats at that time than there were Sunday drinks obtained in the motropolis dening the culir, day.

were Sunday drinks committed in the interspose during the entire day.

One pld lady was tumbled head overheels, and only recovered to see her crinoline sticking be tween the sanche stacks of the ferry boat, while a young lady missed her waterfall in the excite munt, and only set types on it again, as it files through the firmment after the manner of comet with a long trail of false curls trailing be hind.

hind
The torando also extended through several
countles, causing considerable damage in the
way of uproducing trees and tences, but, so far as
we can learn, no lives were lost, and no consider ------

PRESIDENT JOINSON has vetoed the bill admitting Colorado as a State. His main reasons are that her population is seeinly and is under detector it to be deciding. This may be yet we preduct for her a population of 100,000 by the census of 1920, provided the Facific Rail road reaches Denver in 1863, so it surely ought

We admit that the President's objections have force and yet we think this Veto a mistake—
The Veto power, though tremendous, is a valuable element of our system, but it should be seen quite aparingly, and only on the very highest considerations. We do not fire a 100-pounder to kill a ween. The semiston of Colorado is but a question of two or three years sooner or later, and not one of constitutional rights or of Smelanental principles. We cannot consider this a case for a Veto—Frame.

A structural duct took place off Yonkers of the Sudson river. Two men entered a boat, rowed to the middle of the stream, rose to their lock, and despread in a desperate struggle, in which one went overboard and was drowned, the survivor rowing to the opposite shore.

SADDLERY.

HARNESS,

A Railroad Train Backs into a Boarding

House—A Dangerous Situation.

The Term the Alluny Journal
About three o'clock yesterday afternoon, a passenger train on the Susquebannah road came into the depot, the passenger got off, the train ron ont, was switched on to a side trick, and because the depot again. The engineer must either have miscalculaied the distance he had to run, or the length of the train for he backed with considerable lorce against a brick will of a building on the east of the lot. The structure was erected in the rear of Mrs. Watcher e Hotel, Broadway, and was used as a rear cultance to that hotel from Church street, a store house, dee I hie wall was a twelve inch one, and was some twenty feel high. He track terminated within a few inches of it. As the train backed down the pluttorm of the rare cock struck the wall with such force as to knock a hole through it, when of course, the whole structure fell.

Mrs. Watcher and a domestic were at the time engaged inside, washing some clothes. Peter Myets, the burimder, a daughter and so not Mrs. Watcher, and a boy named John Wagoner were in the center of the yard at the time. The burtender heard the crash and observed the failing wall. With considerable presence of inind, he immediately thrust the fernales beek towards the door thus saying them from serious injury. The two boys were covered up in the rains, and both led was also much bruised and his right shoulder dislocated. Dr. Stans was summoned and it it. House—A Dangerous Situs
From the Albany Journal

were badly hust Young watcher was one, cut and brulsed about the head and body. The other lad was also much bruised and his right shoulder dislocated Dr. States was summoned and at tended to the sufferers. James Haight, the well known boiler maker, and a blend had a nation escapt, having but a moment before the accident passed out the rear ourance. A most excelling sent followed the accident As several children had been playing in the yard, every mother who missed her child defined it certain that it was underneath the rulin. Wringing of banker yield, general construction and dismay tollowed, and men went to work i upidly to remove the debris. It was soon ascertained however, that no one except those above men thaned were in the building at the time.

Murder as a Fine Art.

cases of the kind the "any meanity the state of the more lies?"

5 If Professor Evans' relatives should shoot In Newland would not that act afford the same videace of pravysmal insamity as is diarded by Ir Newland is shooting the "rafassor" of it Professor Frams' father should shoot Miss Newland for acducing his son would there not be precisely the same evidence against her as now exists against Professor Evans' 7 Does the shooting of one party to an alleged seduction, so that the story can only be told by the survivor, calablash the fact that the deceased party was any more guilty or any less proviously virtuous than the singivor?

8 Has not society some duty to perform to wards limities whose proxysms take the form of bowie knives and cold lead.\*

Another European War-Cloud.

Whether Austris shale be involved in war with Pruesia is a questic receit of smaller pressing moment than whether she will have to fight Italy for the possession of Venulia. It has been strongly denied that Pruesia and Italy late ly made a treaty for mutual resistance, in the creat of a war in Germany but it appears certain that Victor Emanuel has been heally preparing for war with the Emperor Frances Joseph for possession of Venilia, without which the King dom of listy is meanible, and that hostilities are almost inertable. The Italian force is 150 000 men, the Austrian 160,000 already massed in Venius. It is said that hapoteon, not (openly) pleased with the Italian domonstration, futors the proposition that Austria should withdraw all id ditional troops from Venith and will insist on Italia a sustaining from all offensive action. The result of the troble uncertainty—the we kinness of the Russell diadetone ministry. Its Austria Frussian difficulty, and Austria Italian readmess for battle—is a severe punic on the Bourse of Paris, sed on Change in London, with a great depression of all public securities—British Frunch, Italian and Amoriem. It is known that, at lates date, the lank of Paglini dred the rate of discount. There was a ynuic in the Fragish money market on the Ilurd of Way, and his shares of the various firm a companies, awaite sak value as to be sold at any price that could be obtained.

The cholera has real paured in England One has has occurred at Bristo a secural who cante from Rotterdam via London to Bristol having from Rottendam via London to believe have the mattheward fit also broke out on board the attendable Helvetia after she had left Liverpool famerica. The steamble, on account of the discusse, put back to Liverpool As the persons affected in the litter case were discrimina, an examination of all Germin congrants before their admission to England has been ordered.

Mw George Prancor, who is now sejourning with his triends in F-sace County has been not god to make a return of his income since Suptember, 1962 for the purpose of fazation under the Revenue Laws of the United States.

The Wear and Tear of Labor.
The New York Round Table dwells upon the wear and tear of city life among all clauses of

people.

Ministers who have exhausted every spark of visitity until it is a burden to drag themselves into the pulpit, lawyers who have set at natight overy principle of heath in the race for success and wealth; professors who have reduced them selves to mere bundles of nervee; and business man, who have requested the race when it is not the studies and office extending to eather an increment of life

man who have treatment des human strength will suffer all rush from their studies and offices, expecting to gather an increment of life which will make good the leas of long months of uninterrupted toil it is this delusion which is filling the country with premiturely old men and women, which is ruining the people, and which will in these materially affect the best in terests of the nation.

The people are literally wearing themselves out They go round and round like may hive, as though muscle and bone and fiber could with stand the wear of from and steel Anti-thing to gain an object. Everything to acquire wealth No matter what weakness and nervous derange ments it may entail upon children the spirit of the country is that of work, progress—and the goal must be reached. What it young men grow wild at thirty, or young women lose their fresh ness and vivilety at twenty—there are great things to be done, and if the bridy is worn out in doing them, why the repair must be an after consideration.

The wheels must go round, no matter how many an crushed. Flesh and Prosd are not taken into account. Shatter the arrives, can the eyes, grow gaunt and consumptive—never mind, the spirit of the people must be contested. Fro gress is the word. Wealth first, body afterward and when the little monitors of all health begin their instincting advances the used up man or woman immediately plans a trip to the seaside or mountains, and a month or that of rest.

And when the fittle monitors of all health begin their instincting advances the used up man or woman immediately plaus atrip to the seaside or mountains, and a month or two of rest As though his could be toyed with in this arbitrary way? As though one long strain is balanced by a total relief! It is strange that such absurd ideas of physical culture should have credence among a practical people.

Toung men are brought forward into places of responsibility that are too much for them. Their ambition is excited by every possible motive, and they grow gray and old when they ought to be freeh and light hearted. Young women are hur ried into society and to the use of its wretched artifices long before they are ready to sustain so much care and anxiety.

The remedy of this state of things is the suggestion of plausest sense. The English have been much the most nully, and, as a consequence, they have did it most fully, and, as a consequence, they have did smore moderation in work, and more intermingling of daily labor with picusant recraation. The physical part of our being must be stiended to as we go along not duce in a year at some resort of fashion. We must be satisfied with less, and thus shall we have more real happiness.

AUSTRIA SENDING TROOPS TO MAXI-MILIAN. '

Probable resignation of treasurer V # SPINNER ... THE PENIAN BENATE REPUSE TO AC-KNOWLEDGE STEPHENS.

CONNECTICUT SENATORIAL ELECTION hight, POSTPONED REPÜBLICAN VICTORY AT WILLIAMS

COLONEL HOBBS.

New York, May 17. Advices from St. Domingo state that on the 3d of April the insurgents attacked the Government troops occupying Neita and defeated them, tak-ing one hundred and thirty prisoners and most of their guns. The revolution, there can be no doubt, is backed up by the Haytien Government, which supplies them with money, guns, powder and provisions. The commander of the Govern-

ment troops is waiting for reinforcements.

Pimental bad been proclaimed President and

We have Mexican dates of the 7th of May, by which we learn it was reported creditable that Maximilian had negotiated a loan in Europe. The correspondence with our Austrian Minister, published recently, regarding the shipment of Austrian troops to Maximilian, was cousing considerable discussion. A large quantity of arms, shipped from New York, had arrived at Vera Cruz for the use of

Indecisive skirmishes were taking place daily throughout all parts of the country.

Mr. Barreda, who had just arrived in Washing ton from Europe, says Austrian troops have been shipped to Muxico since the determination to withdraw the French troops was made public He suspects from the date of the shipment that the protest directed by Mr. Seward had already en made to the Austrian Government.

the Imperalists.

NEW YORK, May 17. We glean from the Washington special dis-outches to the morning papers the following: The House has made good progress in the confernion of the Revenue bill and nearly finished all that part of the bill referring to licenses. The netion of the House in regard to the tobacco tax is looked forward to with a good deal of interest y manufacturers, who are represented here by A sharp fight will be made on the amendments proposed by Mr. Schenck, which is to make the duties on cigare advalorem instead of specific, as at present. Mr. Schenck's amendments are in opposition to the views of the Ways and Meaus Committee and also to the Revenue office, but

portion of the Western delegations. The investigation of the Merchants' Nationa Bank affairs shows that interest at the rate of 4 per cent. per annum has been paid on the balon ces of some of the disbursing ufficers and agous who kept their accounts in that bank. This interest was drawn by an outside party, who claims it as compensation from the back for scenring to the Institution their deposits, but who is believed was a common agent for them all. The sum total thus to be drawn is \$42,000. Gol Paulding has been put under arrest, the evidence taken by the Military Board complicating him to a very setions extent in the improper deposit of over

of the Currency this evening to the note holders of the Venango National Bank of Franklin, Pa., and Washington, D. C., to forward the bills of these incituations for redemption. The following gentlemen have been appointed examining surgeons to the Pensium Office: Dr. Jumes E. Sutton, Panama, Michigan; Dr. Wm.

Wells, Georgetown.

Mr. Spinner thinks of resigning his office of United States Treasurer and accepting the Presilency of a New York Insurance Co. It is said that the indictment under which Jeff. Davis will be tried has been drawn to meet the previsions of the act to punish treason, passed July 17th, 1863, the second section of which provides that any person who shall hereafter set on fool or engage in any tehellion against the unbority of the United States shall be haprison ed not exceeding ton years or be fined not exceeding \$10,000 and the Ilberation of all his

dayes. It is also said that Justice Field, of the Supremo Court, has expressed the opinion that this section repeals all previous provisions of nlahment of trensor Attorney General Speed has returned to Washington and is arging upon Members of Congress speedy action on the bill to authorize a term of United States Circuit Court at Richmond in June. It has passed both Houses, but it seems the Senate added on amendment which the House

to-day non concurred in, and asked a committee age of the bill. The Herald's special says : No one expects the Colorado admission bill to pass over the veto, and the Senators cleet from that Territory will oon leave for their western homes, sudder but

wiser men.

The Times special says: We learn by telegraph that "the South Carolina stay law was decided to be unconstitutional by the Court of Errors at New York, May 17. Stephens received a number of military genta yesterday. He is chelify engaged in the con-

sideration of linancial matters and is constantly receiving subscriptions from all quarters, The Fenian Senate is in session and their mys terious action is regarded by some as ominous They ignore Stephens' authority altogether. There was a grand mass temperance meeting In Brooklyn last right, addressed by Rev. Mr

Beecher, Rev. Mr. Cuylor and others. A grand complimentary dinner was given or board the steamahin Napoleon III, last eve ning, in honor of the la lies of New York, A butcher named Reinhard List has been ar rested, charged with the robbery of Mr. Higgins n Saturday last, of a carpet bag containing over

Mr. E. H. Chase and the Petroleum Bank Venre in receipt of a communication from E. H. Chase, Esq., occupying four closely written pages of foolscap, and covering both sides of the sheet. Its publication at length in this issue, to gether with the commentary which it involves would be a physical impossibility, but we give the writer the benefit of all the facts and argu-

ments which his letter contains.

1. The "Petroleum National Bank" sign. This Mr. Chase explains by the statement that Petroleum Bank had filed the necessary papure (as he understood), to be acknowledged National Bank, as soon as the circulation should be reduced to the sum required by the Comptrol ler of the National Currency." "The Bank appropriated a large amount of money to secure the circulation of the national currency, but the money did not reach Washington, but was mis-applied by C. V. Calver to his own use." Mr. Chase further says: "I believed, and I think all the Directors believed, as we had been informed, that all had been done that was necessary to be done to constitute the Petroleum Bank a National Bank, except the reduction of the circulation to the sum required by the Comptroller of the Cur-

And so believing, we presume, the officers of the Petroleum Bank put up their National Bank signs, and printed their stationery with the same designation! Now we have before us a pamphic containing the printed instructions of the Comptroller of the Corrency upon' this subject; and this distinctly prohibits any bank from commencing business as a National Bank until it shall have received "a certificate of authority." We

quote:

The necessary amount of bonds having been deposited with the Treasurer, the Compireller will, if he is satisfied that the said Association has properly complied with the requirements of the Act, and that the should observe have in good bath originated if for the legitimate objects good inth organized it for the legitimate objects contemplated by the act, giving to the Associan certificate authorising it to commence the business of bunking. This certificate, upon the incept thereof, must be published act ruling to the requirements of the 18th section of the act.

No such certificate having been received by the Bank from the Comptroller, it was clearly business under the name of "National" Bank. Any further comment upon this point would be

2. As to the removal of denosits from the Petroleum Bank after the failure became known, Mr. Chase admits that he removed deposits belonging to the Union and Tituaville Railroad, amounting to \$1,100. This, however, had not been placed to any account, and was merely left there for safe-keeping. This, we concule, was all right. Mr. Chase, however, does not respond to our statement that money was actually paid out to other depositors after the Bank was closed on the day of the fulure.

of the Culver agency in the Petroleum Bank for borrowing cash and bonds of depositors. We are glad to be assured of this fact, notwithstanding that the letters were written to depositors on the Bank stationery and signed by John R. Mudison. Mr. Chase's denial of any connection with the transaction throws the responsibility entirely upon his subordinate.

voted to explanations concerning the payment of money to small depositors. In a former article

we assen:

"Was not this money paid through the medium of the Rev. Father Mignault, pastor of the Reman Catholic Church—and exclusively to members of that religious denomination? Such is our information. We do not at all regret that this class of people obtained their money. On the contrary we are glad of H. "

Mr. Chase takes this paragraph for the two

Mr. Chase takes this paragraph for his test, and pitches into us thusly.

"Now for the Catholies. What have the Catholies done to you that you in infect such a deadly stated to them. Have they injuried you or do you persecute them without a cause? They have always treated me will and as a partion of our community they behave well and so long as they continue to do so they are entitled to credit for well doing. I observe that you attempt to apologize for your lil-will to them but they are smart enough to understand that, and if I felt tow risk them as you do! would not wish to attempt to deceive them."

on this question. The Catholics will understand the animus of such miscepresentation --They received their money, and as we said betore, "we are glad of it." Nothing very "dead office of it." Nothing very "dead office of it." In that kind of "hatred," is there? We wish and respectable practice, otherwise stock gamb we know the Catholics will not consider themselves "persecuted," when we say so. You assent that the money came from your own private resources, and was never the property of the Petroloum Rink. So much the more creditable

deliberate or intentional fraud upon the people through his connection with the Petroleum We believe him to be incomable of such acts. But the fact remains that such frauds were committed through the agency of the Bank, and from his official connection, with the institution. as President, he incurs a serious responsibility.

A word in conclusion. We did not invite this controversy, and we hope it may end here. There are two candidates before the people of Eastern Crawford for Assembly. Until the bank failure occurred, we sincerely desired the election of Mr. E. H. Chase. We now consider it a moral impossibility. Mr. Joseph T. Chase is obviously the choice of a vast majority of our citizens, and it is manifestly important that the people in other sections of the county should be ande aware of the fact. Mr. J. T. Chase can be elected; Mr. E. H. Chase cannot. If the latter remains a candidate, it is evidently with a determination to distract the party in other sections and defeat, if passible, the election of a Sepre sentative from Eastern Crawford.

STREET IMPROVEMENTS.—Since the installation of Street Commissioner Wheeter, West Mechanic street has been graded, drained and gravelled Monroe street, from railroad track to Spring street, has been graded and gravelled; as also The whole work has cost less than \$2,000. Mr. Wheeler yesterday commenced on Spring street at the corner of Monroc street and when this street is finished, Franklin street will be graded and gravelled the entire The creek affords an abundant supply of excellent gravel for the purpose which is toro cured at a comparatively trifling cost.

Letter from Syracuse.

Editors Marning Mercial ::
One of life's busiest weeks has passed away, and with it numerous grape vines about our lonsicil and garden were affixed to the tretile. weet corn planted, beets and parsnips sown, to natees set out, peas bushed, with incident garden labors, and this too amid bright skies and genial sun, preparatory to an early return of this pil-grini in search of saily happiness. With this break of day the parched carth has slaked its ls again receiving its needed blessing in supers bundance. So it is that nature supplies the wants of nature, and entitly paradies is farmished by Creative hand for human mortuls. The act of so much misery to the human race, comes in a great degree from non-appreciation of these immunerable blessings and willful, or negligent violation of the laws of our Beling. This also roves the adage, that what a man sows, that

hall be also reep. 2011. . Thinking that it might be of interest to your umerous readers to learn some facts of this rapldly growing city, its many commercial advanta res as the centur of the State, its great sait mine nd other sources of wealth and thrift, I have collected a few statistics to that end, and here

with present them.

The salt mines, or springs, now with millions of capital invested, produce their seven million bushels of salt annually. Besides this, capital is argely invested and being invested in factories of iron, steel, woolen and glass, rolling mills, Im neuse milroad unchine works, mowing machine factories, (including Hubbard's celebrated nowers and reapers), with other mechanisms of less notoriety, whose number is legion. Four milrouds center here: One from Oswego, one from Binghampton, one from Rochester, via. Auburn, and the New York Central. Also the Mid-Newburgh and New. York. Three horse rull roads-traverse its streets, with one or two more in process of building. It is here that is made a denository of the immense coal beds of Pennsyl vania for general consumption, the manufac ture of salt and transhipment by land or water for Central New York. Here, too, several daily and weed ly newspapers flourish by diffusing the news with the intelligence of the times to their nany thousand readers, and whose pockets are thereby stuffed with financial spawn that soon hatch into greenback trout for these literary seedsmen. More still; near a hundred lawyers tave long been fed on the husks and debris of legal battle fields, and of late years mostly husks. while even peanut pedicis at the foot of their stairs have grown rich, built fine houses, and fared sumptuously every day. Good enough for the lawyers, they no need to have known so much, if they were solely in the pursuit of wentth. Doctors, in like numbers, have flourished in their profession in the meantime, by emetic and purgative prescriptions with variations,

or by some of them a sount with their eyes shut. down in among your "inards" for an catta V. Thirty or more churches there are, as guide bourds, if not passports, to bliss in the unknown fature world, with human creeds as various to match, all orthodox to their several adherents. and vice versa. A like number of hotels are huckstered and garnered for taking in and harboring, longer or shorter, oily and other pilgrims. The Erle and Oswego canals also concentre here, and indicative of the magnitude of their business, of which Syracuse gets its full share, the Eric canal alone has paid into the revcauses of the State, tolls for the last five years an average of four million dollars a year, fude-pendent of its large retail trade, the wholesale msiness finds patrons far away by every point of for each bouse is getting quite common. The Postoffice now mails over 1,200,000 letters a year The Orphan and Idiot Asylvins are ornaments to the city and monuments to the benificence

nd wisdom of theh founders. Of the many fine streets and palatial residences, the Onondaga lake, its public halls, its bear tiful blacks, as evidences of the energy and good taste of their projectors, it is unnecessary to peak, in fact they speak for themselves. Auother and highly creditable feet is the public schools and ilberal expenditures to the free edu-cation of all its children. Seventy thousand dolhis raised by city tax, (except cleven thousand dollars public money) make up its cann il badget at expenses for this purpose, of which mar flfty thousand dollars a year are prid to terchers alone, ranging from \$200 to \$1,400 a year as sularies to each. Fourteen public schools there are, conducted by one hundred and twenty teachers, and an average of 500 scholars to each school. A circulating and reference library of 5,000 vol-

umes is also an appartenance to this object.. Professor Ames' Commercial College and another, send forth also their hundreds of pupils to prove to the world the benefits of a thorough business education. Thus, Syracuse in the inlust of a right fertile country and highly pictures que surrounding seemely, with a population including its suburbs of fifty thousand inhabitants, presents its modest record, and so keeps ster with the progress of the age, and to the music of freedom and the Umon. 8, N, H,

The Philadelphia banking firm of Work, Me-Couch & Co, have failed for a unifion of dolburs. i The News save it is the old story over again. the Protestants had been equally fortunate, and Hig of the most notarious character. It has been known for some time past that this firm was engaged in cornering the stock of the ITes onville rathroad, the price of which, under their manipulation, was tun up from twenty dollars a share to forty five. As is usual under such cir comstances, a "pool" was made, into which ser eral parties were admitted, and the sequel shows that there were was more stock for sale than was calculated on. It is also elleged that some of the parties to the cornering arrangement have been cloud dealers; putting their stock on the market quietly, and compelling the chief operators, Work, McCouch & Co., to purchase it at high prices, until they had accumulated some twenty ousand shares, on which they suffer a los of half a million of dollars. There are cheum stances connected with the conduct of the house and its bankruptcy which are of the most disce putable character, and there will doubtless be a healthy ventilation of the matter in the course of two or three weeks. Beyond its intiniate connec tion with a highly respecable firm in Pittsburgh which can scarcely stand up under this disaster we are not advised of any other parties likely to

be seriously affected. AN "Accidental" Fire at Pithole.-Th Pithole Record has the following account of an

"accidental" fire in that city:
Tuesday night a fire was discovered between Nos. 82 and \$4 Holmden st., and after its extinguishment, an investigation disclosed the fact that some old barrels had been deposited between the buildings and some loose straw thrown on them, where the fire originated very mysteriously; and which would undoubtedly have destroyed the whole block of stores between Practice, Wadaworth & Co's Bank and Second st., had not a passing pedestrian discovered it in time and put if out. We understand the occupant of No. 82 had just effected as insurance of fifteen hundred dollars on his stock. Of course this had nobling to do with the fire—it only 'accidental" fire in that city: officen hundred dollars on his sinck. Of course this had nothing to do with the fire--th only shows what foresight the gentleman occupying No. 82 had when he obtained the insurance! However, we think thise displays of prinden foresight would be almost entirely unnecessary if the Insurance Companies would cancel every policy in the place, and if measures could be taken to rid the place, and if measures could be taken to rid the place of the crowd of roughs who are infecting the borough without having any visible means of support.

THE Union Mills Bulletin says that "surprise parties"—those modern infernos- are all the rage there. Also, that a sidewalk now extende the wohle distance between the two rallroad de-The milroad between that borough and Titusville is being actively pushed forward.

"BETHLEHEM"-A BEAUTIFUL SACRED EN-GRAVING.—R. H. Curran, Gen. Agent, Rochester, has favored as with a copy of the "Bethlehem" Engraving, about which so much is said in its praise lately. This sacred picture will be sought for largely when its merits are known and when it shall have been seen. For a description of the print we prefer to quote from the pen of a critic and connoisseur in the Fine Arts.

and comoisseur in the Fine Atts.

"The figures are harmoniously arranged in general and pleasing attitudes. The Mother of the Savior is copied from one of Raphael's Madounas. Before her lies the Infant Savior, upon whom she looks with hid maternal affection and emotions full of doquent expression, as she contemplates the life hefore her, prophetically announced to affect the destiny of man, through time and eternity. Joseph, the humble Carpenter of Nazareth, satisfied through Divine Revelation that this is indeed the promised Emanuel, with eatin joy surveys the scene. The "Wess Man," "Shepherds," and other representatives in the group, occupy reverential positions. The Sacrifical Lamb bound in the foreground. The burning laggots, the glummering rays of the oriental lamp, typical of the dimend passing dispensation; the star-decked sky, as seen through the easement and brunches of leafless trees; the gray dawn of moriting light in the eastern horizon, emblematical of the moral light just bursting upon the world, combine in the production of light and shade the most ride, powerful and exquisited in art.

"The productions of Master Artists are dis-

lu art.
"The productions of Master Artists are dis-"The productions of Master Artists are distinguished from each other and characterized by peculiar and stitling styles of workmanship, which to an emment degree reflects the impress of their individual genus, takent, soul and conception in art. Therefore, it is impossible for any Artist to engrave as satisfactory a companion piece for "Christ Blessing Little Californ," as Samuel Sartain. All should examine "Bettie-hom," before procuring any other match.
"The Samed Engravings will, through all coming thic, be imperisable monuments to the memory of Sartain and to American genius and taient."

THE FLAG RECEPTION ON THE FOURTH OF JULY.—The Pennsylvania Central Radroad Company has offered the gratuitous use of its cars, for the transportation, in July next, of the gallant soldiers who, during the late war, by actual detail, bore the color of their regiments, or acted as their guard, while they were on the field of battle. Such of these brave men as may be able are requested to assemble in Harrisburg on the 1st of July, and tameportation thither will be afforded them upon application to the members of the Military Committee representing the district in which they reside. The members of the Committee on Transportation should seeme correct lists of all the surviving color-bearers and colorguards, and send them to General Negley, at Pittsburgh, on or before the 20th of the present month, so that no difficulty or delay will be experienced in procuring the blokets. General Negley can be addressed at Pittsburgh, or General Tyndale at Philadelphia, in reference to matters connected with this put of the proceeding on the coming Fourth of July.

Tax firm of Prather, Wadsworth & Co., Pithole City, is dissolved, Mr. E. B. Ellwood retir-ing. Mr. Thompson, late Cashier of the Bank, also retires, and Mr. George D. Dayls, jr., late Teller of the Bank tokes the place of Mr. Thompson as Cashier. Both Mr. Eliwood and Mr. Thompson have been faithful others, and the affairs of the Bank have been well managed under their administration Mr. Davis is a gentleman of good financial ability, is perfectly conversant with banking in all its departments, has had experiones and possesses the confidence of this community, baying been in the oil regions for es and in Pithole since the striking of the old U. S. Well. We are pleased to learn that Mr. Wadaworth remains in this place, giving his personal attention to the Bank, having retired from the institution at Plumer. So says the Record.

FINANCIAL AND COMMERCIAL

FINANCIAL.

The Commercial's money article edge. The stock market appears to be drouging again into a condition of children and depression. The condition of shifter in Regiand and on the continent weeks bearity upon the Esgland field on the couldnest resigns heavily upon the market here, not in the way of producing any sedicite apprehensions of paste, but from a feeling that from the condition is countries with which meanly our whole foreign commerce in transacted cannot fail to produce uneasiness and distribution to large interests on this side. At their guider Roand this meaning there were some specialistic movements on some of the miscellandous stockas, especially in Cumberland Cost, which advanced 1% o under elique operations, and on Canton, which closed at 11% o higher. The rational list was on the whole dult, the prevailing disposition being to resize. Some considerable lots were sold on Vrestors account and seme large sales were made in Michigan ount and some large sales were made in Michigan Jopthern to close up speculative operations. N. Y oniral was active under clique operations and rose if a lovernments are quiet. The gold interest bands ar

Governments are quiet. The gold Exterest bedder of depressed under apprehensions of the further return of 5-20 from Europe.

Monay is in rather more demand and we hear o some calling in of a per cent losus. The supply at a per cent, however, is abundant. Prime paper is in dend at 5036 / por cent. Gold is rather week and in less demand. There are

no indications that the Treasury has sold largely to-day

PETROLEUM MARKETS.

TITUSTILLE, Moy 17. Throsperioleum markets are experiently a decline in a corresponding proportion to the late sudden rise. Oil in New York was quoted at 27c and the producing markets have given way, a little more suddenly even than they advanced. The irregularity and inconsistency of prices consequent upon the violent fluctuation of the markets renders it a difficult matter to say the preclse figures at which oil can be bought. Sales have been quoted at \$4.50, 4.75 and \$5.00 on the creek which gives a clear indication which way the markets tend.

gives a cient indication winton way the margest topi.

The late advices from Europa are unfavorable. The large exports which are reported to have taken place in New York and Philadelphia may have a still further influence on the foreign markets, when the fact becomes known abroad.

Oil was offered to-day by the Central Petroleum Co.

The total net production of crude petroleum in the The total net production of crude petroleum in the United States during the year 1885 was 2,836,000 barrels averaging 7,756 barrels per day. Towards the close of the year and the beginning of this year, the daily production was rated as high as 33,000 barrels, since which time from the absence of development, it has been gradually falling of. During the last an weeks the decrease has been going at the rate of about 600 barrels per week Judelius by the increase of assummthing from year, to get the production of the period of the Judging by the increase of consumption from year t year, we find that the proable daily consumption of reyear, we find that the proable daily consumption of re-flued petroleum for this year will average about 4,300 barrels, which takes 7,200 barrels of crude to produce a. We could afford to let the production fail off to 3,000 barrels put day for a few months without materially affecting the markots. This time last year the produc-tion was only about 3,000 barrels daily. To take a com-prehensive view of this subject, however, we james make a calculation as to what the production will prod-able to for the whole barbing of the very. There is no ably he for the whole balance of the year. There is at great a variety of opinion upon this point that it would be difficult to venture upon an estimate. The wells at present producing are daily falling off, and that so fast

CHARLEST PARS CONCRAT-DISTRIPLE CONCRAT-DISTRIPL CHARGENIAN'S PRINT COMORNY-DISTRICT

THE CONTROL OF of July, in the form of a mammoth Prize Concert. The hovelty of the attraction consists in the distribution among the audience of upward of two thousand; and, nicety valuable gifts, amounting in the uggregate to \$40,700—the guard price, being the large two story building extending from Spring to Diamond street, valued at 15,000. The lot is 34 feet from by 140 feet does 1700 buffding combines Soin store and dwelling, the former fronting on Spring street and having a spacious door yard, ornamented with trees and shrubbery; the store on Dismond street, adjacent to the Criteriden House, and constituting one of the most advantageous and valuable business; localities in the city. Tue valuable on the city. Luc pring list, also includes a one-sixteenth working interest in well 106, Rooker firm, a valuable "bore well beggy, two gold watches, twenty-five double cased eliver watches, and the entire stock of wines, liquors, charts, glassware, and furniture of both store and dwelling above described. A complete list of the prizes will be found in another column. There will be four thousand and seventy tickets, and two thousand and ninety prisee, or a prize to every other ticket holder. Every ticket holder will be registered, and every believe numbered in duplicate. The distribution will be in charge of a committee of disinterested etitizens, to be selected by the audience at the ime and place designated. We have hever before commended enterprises

aite the reverse. Mr. Crittenden's reference are Mesars. F. W. Ames, J. T. Chase, R. D. Fietcher, J. T. Brigge, C. C. Duffield, and W. W. kingsland, gentlemen who are prominently known throughout the oil region. We have carefully examined the schedule and are confident there is nothing ficticious or unreal about it. It is a matter of fact sale of unenemabured property at par value, by an extensive plan of distribution among tieket holders to an unexceptionable enterminment, and does not in any manner conflict with the common or statutory

den's object in this matter. He has built and furnished at an enormous cost the largest and best hotel in the oil region. In giving it his ex clusive personal attention, and devoting his en-tire capital to its success, it necessitates the suspension of his former business and the disposal of all other property. Every person interested in the reputation and prosperity of Titusville hould appreciate the necessity of sustaining an enterprise of this character. The price of tickets is fixed at \$10 each. More than half the ticket holders will receive gifts, and some of them will have abundant cause for rejoicing.
